**DETAILED ACTION**

1. Drawings filed on April 24, 2007 are now accepted by the examiner.
2. Applicant's amendment filed on April 2, 2009 has been entered and made of record. Currently, claims 1-12, 25-26, 28-29 and 31-34 are pending and claims 13-24, 27 and 29-30 were canceled.

***Examiner's Amendment***

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
4. The application has been amended as follows:

In the Claims:

In line 1 of claim 25, delete "Previously Presented" and insert "Currently amended".

In line 1 of claim 28, delete "Previously Presented" and insert "Currently amended".

***Response to Arguments***

5. Applicant's arguments, see pages 10-13 of the response filed on April 22, 2009, with respect to Watson, Pian and Lee have been fully considered and are persuasive. The rejection of claims 1-12, 25-26, 28-29 and 31 under 35 U.S.C. 103 has been withdrawn. Specifically as pointed out by Applicant that the applied prior art does not teach or suggest "wherein the final set of parameters define quantization steps (Q-steps) for quantizing coefficients, a block size threshold that limits a number of blocks associated with one or more block sizes, one or more weighting functions that define weightings to be applied during quantization, and one or more

variable length coding tables to be applied during variable length coding” as recited in claim 1 lines 8-12 for example.

6. Applicant’s arguments, see pages 9-10 of the response filed on April 22, 2009, with respect to the rejection of claims 25-26 and 28-29 under 35 U.S.C. 101 have been fully considered but they are not persuasive. However, upon further review and consideration, it is noted that claim 25 as a representative claim does recite “a decoder” in line 4. While the instant specification does not describe/define such a decoder is a purely software, it does state “For coding and decoding, Huffman code tables may be stored in both the encoder120 and decoder 175” at page 12 paragraph [0053]. So, the claimed decoder, as properly read in light of the specification, is not purely directed to software because software alone can’t store Huffman code tables. Therefore, the examiner withdraws the rejection of claims 25-26 and 28-29 under 35 U.S.C. 101.

***Allowable Subject Matter***

7. Claims 1-12, 25-26, 28-29 and 31-34 are allowed.
8. The following is an examiner’s statement of reasons for allowance: Reference is made to the preceding paragraph 5 as to the reasons for allowance of claims -12, 25-26, 28-29 and 31-34.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duy M. Dang whose telephone number is 571-272-7389. The examiner can normally be reached on Monday to Friday from 6:00AM to 2:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew C. Bella can be reached on 571-272-7778. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
